SANTIAGO MONTGOMERY

The Italian Risorgimento Feltrinelli Editore

The Unification of Italy in the nineteenth century was the unlikely result of a lengthy and complex process of Italian 'revival' ('Risorgimento'). Few Italians supported Unification and the new rulers of Italy were unable to resolve their disputes with the Catholic Church, the local power-holders in the South and the peasantry. In this fascinating account, Martin Clark examines these problems and considers: · The economic, social and religious contexts of Unification, as well as the diplomatic and military aspects · The roles of Cavour and Garibaldi and also the wider European influences, particularly those of Britain and France · The recent historiographical shift away from uncritical celebration of the achievement of Italian unity. Did 'Italian Unification' mean anything more than traditional Piedmontese expansionism? Was it simply an aspect of European 'secularisation'? Did it involve 'state-building', or just repression? In exploring these questions and more, Martin Clark offers the ideal introductory account for anyone wishing to understand how modern Italy was born. This new edition has been revised in the light of recent research and now has a greater emphasis on the 'losers' of the conflict, the impact of Unification on the South, and the complexity of the political realities of the times. It has also been updated with useful additional material such as a Who's Who and a plate section to go alongside its carefully chosen selection of original documents.

Here is the original manuscript of Raymond Carver's seminal 1981 collection, *What We Talk About When We Talk About Love*. Carver is one of the most celebrated short-story writers in American literature—his style is both instantly recognizable and hugely influential—and the pieces in *What We Talk About . . .*, which portray the gritty loves and lives of the American working class, are counted among the foundation stones of the

contemporary short story. In this unedited text, we gain insight into the process of a great writer. These expansive stories illuminate the many dimensions of Carver's style, and are indispensable to our understanding of his legacy. Text established by William L. Stull and Maureen P. Carroll

"Utterly sublime . . . Aduatells a gripping story of war, migration and family, exposing us to the pain and hope that reside in each encounter" (Maaza Mengiste, author of *The Shadow King*). Adua, an immigrant from Somalia, has lived in Italy nearly forty years. She came seeking freedom from a strict father and an oppressive regime, but her dreams of becoming a film star ended in shame. A searing novel about a young immigrant woman's dream of finding freedom in Rome and the bittersweet legacies of her African past. "Lovely prose and memorable characters make this

novel a thought-provoking and moving consideration of the wreckage of European oppression." —Publishers Weekly (starred review) "Igiaba Scego is an original voice who connects Italy's present with its colonial past. *Adua* is an important novel that obliges the country to confront both memory and truth." —Amara Lakhous, author of *Dispute over a Very Italian Piglet* "This book depicts the soul and the body of a daughter and a father, illuminating words that are used every day and swiftly emptied of meaning: migrants, diaspora, refugees, separation, hope, humiliation, death." —Panorama "A memorable, affecting tale . . . Brings the decolonialization of Africa to life . . . All the more affecting for being told without sentimentality or self-pity." —ForeWord Reviews "Deeply and thoroughly researched . . . Also a captivating read: the novel is sweeping in its geographical and temporal scope, yet Scego nonetheless renders her complex protagonists richly and lovingly." —Africa Is a Country

Beside Myself Kennedy Fox

This novel hinges on the battle of Monte Cassino, Italy, in World War II, covering the international contingents and their contribution to that victory. The four month long battle at Monte Cassino in southern Italy was one of the bloodiest in World War II. In this highly original novel, Janeczek retells that 1944 battle from the point of view of the Maori, Gurkha, Polish, North African, small-town American and other Allied foot soldiers who fought and died under German fire near that 6th century Benedictine abbey. Twined through the battle is another story, a memory of the drowned and the saved in Janeczek's own family in wartime Eastern Europe, where Jews who did not go to Nazi death camps went to Soviet gulag camps, and sometimes survived, and even went on to fight at Monte Cassino. A powerful reflection on all the ways that rights can be taken from us. "Helena Janeczek's novel is this: a tattoo etched on the skin, and not painlessly. A vast design that brings together threads from all the various lives that converged in that legendary battle. The beauty of her tale lies in its structure, the way opposites converge: the chaos of battle and the silence of the defeated, ordinariness and the heroism of the powerless, carefully guarded memory and impetuous youth, the past perpetually intertwined with the present." Sartre as Biographer Open Road Media

Molho (European history, Brown U.) shows that the propertied families of late-medieval and early-modern Florence maintained their power and influence through arranged marriage and the dowry. While elsewhere in Europe the elite were toppling under the onslaught of commerce and personal freedom, in Florence they married carefully within a narrow and well-defined class, used dowries as both speculation and instruments of manipulation, and remembered every detail for a long time. Of Anger (Annotated) Dialogues of Seneca

Alice Walker's first published book collects poems written as a student and on her first visit to Africa For readers seeking the origins of Alice Walker's potent, distinctive voice, this collection will provide ample insight. Composed while she was still a student at Sarah Lawrence College in the late 1960s, these poems are already engaged with some of the moral dilemmas that have defined Walker's entire career. Luminous vignettes from her first trip to Africa give way to reflections on the flourishing civil rights

movement, while an eye for the transformative power of love and beauty run through all twenty-seven entries. Walker's talents are prodigious, yet it's her pure moral and aesthetic clarity that impress most in this debut work. This ebook features an illustrated biography of Alice Walker including rare photos from the author's personal collection.

Featuring essays by leading feminist scholars from a variety of disciplines, this key text explores the latest developments in autobiographical studies. The collection is structured around the inter-linked concepts of genre, inter-subjectivity and memory. Whilst exemplifying the very different levels of autobiographical activity going on in feminist studies, the contributions chart a movement from autobiography as genre to autobiography as cultural practice, and from the analysis of autobiographical texts to a preoccupation with autobiography as method.

The Lesser Evil Routledge

From #1 New York Times bestselling author Stephen King whose "storytelling transcends genre" (Newsday) comes "another winner: creepy and touching and horrifyingly believable" (The Boston Globe) about a group of kids confronting evil. In the middle of the night, in a house on a quiet street in suburban Minneapolis, intruders silently murder Luke Ellis's parents and load him into a black SUV. The operation takes less than two minutes. Luke will wake up at The Institute, in a room that looks just like his own, except there's no window. And outside his door are other doors, behind which are other kids with special talents—telekinesis and telepathy—who got to this place the same way Luke did: Kalisha, Nick, George, Iris, and ten-year-old Avery Dixon. They are all in Front Half. Others, Luke learns, graduated to Back Half, "like the roach motel," Kalisha says. "You check in, but you don't check out." In this most sinister of institutions, the director, Mrs. Sigsby, and her staff are ruthlessly dedicated to extracting from these children the force of their extranormal gifts. There are no scruples here. If you go along, you get tokens for the vending machines. If you don't, punishment is

brutal. As each new victim disappears to Back Half, Luke becomes more and more desperate to get out and get help. But no one has ever escaped from the Institute. As psychically terrifying as Firestarter, and with the spectacular kid power of It, The Institute is "first-rate entertainment that has something important to say. We all need to listen" (The Washington Post).

Sitting at his desk, Bernardo Soares imagined himself free forever of Rua dos Douradores, of his boss Vasques, of Moreira the book-keeper, of all the other employees, the errand boy, the post boy, even the cat. But if he left them all tomorrow and discarded the suit of clothes he wears, what else would he do? Because he would have to do something. And what suit would he wear? Because he would have to wear another suit. A self-deprecating reflection on the sheer distance between the loftiness of his feelings and the humdrum reality of his life, *The Book of Disquiet* is a classic of existentialist literature.

Early Rome and the Etruscans Scarith

YOU have demanded of me, Novatus, that I should write how anger may be soothed, and it appears to me that you are right in feeling especial fear of this passion, which is above all others hideous and wild: for the others have some alloy of peace and quiet, but this consists wholly in action and the impulse of grief, raging with an utterly inhuman lust for arms, blood and tortures, careless of itself provided it hurts another, rushing upon the very point of the sword, and greedy for revenge even when it drags the avenger to ruin with itself. Some of the wisest of men have in consequence of this called anger a short madness: for it is equally devoid of self control, regardless of decorum, forgetful of kinship, obstinately engrossed in whatever it begins to do, deaf to reason and advice, excited by trifling causes, awkward at perceiving what is true and just, and very like a falling rock which breaks itself to pieces upon the very thing which it crushes. That you may know that they whom anger possesses are not sane, look at their appearance; for as there are distinct symptoms which mark madmen, such as a bold and menacing air, a gloomy brow, a stern face, a hurried walk, restless hands, changed colour, quick and strongly-drawn breathing; the signs of angry men, too, are the same: their eyes blaze and sparkle, their whole face is a deep red with the blood which boils up from the bottom of their heart, their lips quiver, their teeth are set, their hair bristles and stands on end, their breath is laboured and hissing, their joints crack as they twist them about, they groan, bellow, and burst into scarcely intelligible talk, they often clap their hands together and stamp on

the ground with their feet, and their whole body is highly-strung and plays those tricks which mark a distraught mind, so as to furnish an ugly and shocking picture of self-perversion and excitement. You cannot tell whether this vice is more execrable or more disgusting. This edition includes: - A complete biography of Lucius Annaeus Seneca- Table of contents with direct links to chapters

These essays by eleven internationally renowned historians present nuanced profiles of the major social and professional groups—the callings-of the Middle Ages. The contributors focus on attitudes of medieval men and women toward their own society. Through a variety of techniques, from a reading of the Song of Roland to a reading of administrative records, they identify characteristic viewpoints of members of the fighting class, the clergy, and the peasantry. Along with vivid descriptions of what life was like for warrior knights, monks, high churchmen, criminals, lepers, shepherds, and prostitutes, this innovative approach offers a valuable new perspective on the complex social dynamics of feudal Europe. "Very useful discussions of texts, both learned and literary."—Christopher Dyer, *Times Literary Supplement*

School Days (Chemin-d'Ecole) is a captivating narrative based on Patrick Chamoiseau's childhood in Fort-de-France, Martinique. It is a revelatory account of the colonial world that shaped one of the liveliest and most creative voices in French and Caribbean literature today. Through the eyes of the boy Chamoiseau, we meet his severe, Francophile teacher, a man intent upon banishing all remnants of Creole from his students' speech. This domineering man is succeeded by an equally autocratic teacher, an Africanist and proponent of "Negritude." Along the way we are also introduced to Big Bellybutton, the class scapegoat, whose tales of Creole heroes and heroines, magic, zombies, and fantastic animals provide a fertile contrast to the imported French fairy tales told in school. In prose punctuated by Creolisms and ribald humor, Chamoiseau infuses the universal terrors, joys, and disappointments of a child's early school days with the unique experiences of a Creole boy forced to confront the dominant culture in a colonial school. *School Days* mixes understanding with laughter, knowledge with entertainment—in ways that will fascinate and delight readers of all ages.
