**Mirabeau: Etude Sur Les Idees Politiques** Peeters Publishers

For the past twenty years feminist grass-root movements, professionals, and researchers have shown how the social construction of gender relations interacts with all forms of imperialism to mould the dominant ideologies of development. Based on a constant dialogue between theory and practice, research and action, their analyses of society and international development begin with women's experience and aim at policies and actions directed toward social change and the empowerment of women.

[Annuaire Europeen 1988 - European Yearbook 1988](#) Taylor & Francis

The European Yearbook has expanded over the years in keeping with the role played by European institutions compared with national ones. It is an indispensable work of reference for anyone dealing with these institutions, which have become so numerous & varied that no-one can possibly memorise all their acronyms or functions. The European Yearbook provides aids for finding one's way through the labyrinth of these organisations which coordinate a variety of activities in over 20 countries. One of the aids is an 'organisation chart' at the beginning of the documentary section, giving a clear picture of the general situation. A perusal of the many contributions in the volume organisation by organisation, shows the full diversity of the activities which Europe is gradually taking over from national governments, with their consent & financial support. Written in both of the Council of Europe's official languages, English & French, the European Yearbook also contains a general index by subject & name which constitutes a very valuable list of articles & provides direct access to the work's subject matter, regardless of the particular organisation concerned, offering a kind of cross-section of the activities of European organisations.

The "European Yearbook promotes the scientific study of nineteen European supranational organisations and the Organisation for Economic Co-operation and Development (OECD). Each volume contains a detailed survey of the history, structure and yearly activities of each organisation and an up-to-date chart providing a clear overview of the member states of each organisation. Each volume contains a comprehensive bibliography covering the year's relevant publications.

**Collective Bargaining in Labour Law Regimes** Martinus Nijhoff Publishers

The "European Yearbook" promotes the scientific study of nineteen European supranational organisations and the OECD. The series offers a detailed survey of the history, structure and yearly activities of each organisation and an up-to-date overview of the member states of each organisation. This special anniversary volume celebrates 60 years of publication of the Yearbook, and its contents differs from that of the regular volumes therefore. It offers a selection of the most important articles, dealing with European cooperation and integration, to appear in the Yearbook during its 60 years of publication. These are of particular interest not only because they provide a unique historical snapshot of the many successes (and occasional failures) in the field of European integration but also because they discuss the ideals and aims that lay behind these efforts, many of which still resonate today as Europe confronts questions about its political destiny and ideal shape. This volume contains articles in English and French."

Alors que la notion meme de litterature suppose un travail d'écriture et pose le probleme du statut de l'écrivain, on s'interroge rarement sur les structures mentales que requiert l'acte d'écrire, sur l'écrit comme instrument de communication, voire d'action, sur les ressources de l'écrit. Ces questions sont d'une importance toute particuliere pour Rome et dans le moment charniere constitue par la fin de la Republique. Comment Rome est-elle passee d'une societe largement orale au debut de la Republique a une societe ou l'on a eu, comme le dit Horace, la fureur d'écrire? Pourquoi certains auteurs ont-ils voulu conserver certaines de leurs oeuvres par écrit? Comment les Romains ont-ils abandonne un certain dedain a l'egard de l'écrivain pour admettre une veritable gloire litteraire et permettre a l'auctor de se hisser presque au meme rang que le magistrat et le chef d'armee? Partant du choc culturel qu'a represente l'ambassade de Carneade en 155 et se poursuivant jusqu'a la fin de l'époque ciceronienne, cet ouvrage brosse le tableau des evolutions qu'ont connues durant cette periode les statuts successifs ou concomitants de l'écrivain et de l'écrit, la hierarchisation des oeuvres et des genres, la nature du lectorat qu'il faut voir comme un co-auteur ou co-acteur de l'oeuvre. L'etude proposee montre en particulier combien les evenements historiques, les mutations societales, l'évolution des mentalites ont modifie le rapport a l'écriture et a l'écrit des auteurs et des lecteurs, la maniere de concevoir des discours, des ouvrages historiques, des traites, des poemes et des pieces de theatre. Pour cette enquete, les oeuvres perdues et les oeuvres conservees ont ete traitees, autant que faire se peut, a egalite, les analyses litteraires ont ete conjuguees a des analyses sociologiques et historico-politiques qui interesseront, au-dela des specialistes de litterature antique, de philologie, d'histoire romaine, un public large d'etudiants de Lettres et d'Histoire ancienne. Il convient de lire cet ouvrage non comme une histoire de la litterature latine qui viendrait s'ajouter a tant d'autres, mais comme une histoire des écrivains qui ont fait, dans les deux derniers siecles de la Republique, la litterature écrite et ont ete les acteurs d'une veritable revolution culturelle.

This book addresses the theme of collective bargaining in different legal systems and explores legal framework of collective bargaining as well as the role of different bargaining models in domestic labour law systems in altogether twenty-one jurisdictions throughout the world. Recent development of collective bargaining regimes can be viewed as part of a larger development of labour law models that face increasing challenges caused by globalization and transition of work and workplaces. The book places particular emphasis on identifying and examining most important development trends affecting domestic labour law regimes and collective bargaining and regulatory responses thereto. The analysis offered extends to transnational dimension of collective bargaining. As the chapters analyse the influence of the legal frameworks of collective bargaining in different countries they provide unique comparative insight into the topic which is central to understanding the function of labour law.
