after the selection phase  
where they will receive a  
language starter kit that  
allows them to begin  
language training while  
waiting to return to Fort

*Michel Tournier and the Metaphor of Fiction* Columbia University Press

All over Africa, an explosion in cultural productions of various genres is in evidence. Whether in relation to music, song and dance, drama, poetry, film, documentaries, photography, cartoons, fine arts, novels and short stories, essays, and (auto)biography; the continent is experiencing a robust outpouring of creative power that is as remarkable for its originality as its all-round diversity. Beginning from the late 1970s and early 1980s, the African continent has experienced the longest and deepest economic crises than at any other time since the period after the Second World War. Interestingly however, while practically

every indicator of economic development was declining in nominal and/ or real terms for most aspects of the continent, cultural productions were on the increase. Out of adversity, the creative genius of the African produced cultural forms that at once spoke to crises and sought to transcend them. The current climate of cultural pluralism that has been produced in no small part by globalization has not been accompanied by an adequate pluralism of ideas on what culture is, and/or should be; nor informed by an equal claim to the production of the cultural packaged or not. Globalization has seen to movement and mixture, contact and linkage, interaction and exchange where cultural flows of capital, people, commodities, images and ideologies have meant that the globe has become a space, with new asymmetries, for an increasing intertwinement of the lives of people and, consequently, of a greater blurring of normative definitions as well as a place for re-definition, imagined and real. As this book *Contemporary African Cultural Productions* has done, researching into African

culture and cultural productions that derive from it allows us, among other things, to enquire into definitions, explore historical dimensions, and interrogate the political dimensions to presentation and representation. The book therefore offers us an intervention that goes beyond the normative literary and cultural studies main foci of race, difference and identity; notions which, while important in themselves might, without the necessary historicizing and interrogating, result in a discourse that rather re-inscribes the very patterns that necessitate writing against. This book is an invaluable compendium to scholars, researchers, teachers, students and others who specialize on different aspects of African culture and cultural productions, as well as cultural centers and general readers.

Michel Tournier is a writer who explores complex philosophical questions in the guise of concrete, imagistic narratives. This

comprehensive study privileges the notion of literary reference, by which the world of text is understood or experienced in metaphorical relation to the world outside of it. Metaphor, in the context of Tournier's fiction, shows how the fantastic merges with the real to provide new perspectives on many diverse aspects of the modern world: the Crusoe myth, Nazism, the value to society of art and religion, and the nature of education. This book elucidates an aesthetic of Tournier's fiction that encompasses the writer's stated ambition to 'go beyond literature'.

Available only in Middle French and German translation until now, this volume constitutes the first full-length, French-English bilingual edition of Rene of Anjou's *Livre du cuers d'amours espris*, including all sixteen of the celebrated color plates, a critical introduction, notes on the translation, and a comprehensive bibliography. The book tells the tale of desire and adventure as Heart -- part of Rene torn from his body by Love -- travels a complex allegorical

landscape in quest of the lady Mercy, who is being held prisoner by a band of miscreants led by Refusal and Shame. Rene begs the reader to help him determine which of three entities is responsible for his torment: Fortune led him to the lady whom he loves; once he arrived, Love, in the guise of his lady's gaze, struck his heart; and Destiny insists that he reflect upon her alone. In addition to being a compelling courtly page-turner, *The Book of the Love-Smitten Heart* represents the rare instance in which a medieval love story is told simultaneously in three frameworks:

autobiographical letter, dream vision, and quest romance. This structure makes clear the multiple logics within which the author's psychology is reflected in the story, and illustrates how the symbol of the heart, as it travels through these shifting frameworks, dramatizes vital relations linking self, desire, and writing.

Introduction to the French Language ...

Rodopi  
Surveying the expanding conflict in Europe during one of his famous fireside chats in 1940, President Franklin Roosevelt ominously warned that "we know of other methods, new methods of attack. The Trojan horse. The fifth column that betrays a nation unprepared for treachery. Spies, saboteurs, and traitors are the actors in this new strategy." Having identified a new type of war -- a shadow war -- being perpetrated by Hitler's Germany, FDR decided to fight fire with fire, authorizing the formation of the Office of Strategic Services (OSS) to organize and oversee covert operations. Based on an extensive analysis of OSS records, including the vast trove of records released by the CIA in the 1980s and '90s, as well as a new set of interviews with OSS veterans conducted by the author and a team of American scholars from 1995 to 1997, *The Shadow War Against Hitler* is the full story of America's far-flung secret intelligence apparatus during World War II. In addition to its responsibilities generating, processing, and interpreting

intelligence information, the OSS orchestrated all manner of dark operations, including extending feelers to anti-Hitler elements, infiltrating spies and sabotage agents behind enemy lines, and implementing propaganda programs. Planned and directed from Washington, the anti-Hitler campaign was largely conducted in Europe, especially through the OSS's foreign outposts in Bern and London. A fascinating cast of characters made the OSS run: William J. Donovan, one of the most decorated individuals in the American military who became the driving force behind the OSS's genesis; Allen Dulles, the future CIA chief who ran the Bern office, which he called "the big window onto the fascist world"; a veritable pantheon of Ivy League academics who were recruited to work for the intelligence services; and, not least, Roosevelt himself. A major contribution of the book is the story of how FDR employed Hitler's former propaganda chief, Ernst "Putzi" Hanfstaengl, as a private spy. More than a record of dramatic incidents and daring personalities, this book

adds significantly to our understanding of how the United States fought World War II. It demonstrates that the extent, and limitations, of secret intelligence information shaped not only the conduct of the war but also the face of the world that emerged from the shadows.

Ces créatures d'images polymorphes que sont les avatars jouables nous font exister dans les mondes numériques des jeux vidéo, et même dans certains sites Web communautaires ou ludiques. Parce qu'elles nous y métamorphosent, elles apparaissent emblématiques des pratiques interactives les plus sophistiquées et troublantes. Toutefois, leurs propriétés et effets, espérés ou redoutés, restent encore à éclairer, ainsi que toutes ces interactions à distance réalisées par avatars interposés, au cœur des simulations audiovisuelles informatiques contemporaines. Ancré en sciences de l'information et de la communication, ce premier ouvrage collectif francophone sur le thème conceptualise l'avatar. Aussi, il bénéficie des apports conjugués de différentes disciplines (philosophie des techniques, psychologie, psychanalyse, sémiologie, ethnologie, sociologie, sciences de la gestion, arts). Par cette pluralité et grâce à de constants allers-retours entre théories et terrains,

descriptions et analyses, hypothèses et témoignages, peuvent être articulées toutes les dimensions en jeu : technologiques, physiologiques, interpersonnelles, identitaires, intimes et/ou culturelles.
