ABC & Color Me Walter

In an age of myriad
computer fonts and
instant communication,
your handwriting style is
increasingly a very

personal creation. In this
book, Margaret Shepherd,
America's premier
calligrapher, shows you
that calligraphy is not
simply a craft you can
learn, but an elegant art
form that you can make
your own. Calligraphy
remains perennially
popular, often adorning
wedding invitations,

diplomas, and commercial
signs. Whether it is
Roman, Gothic, Celtic,
Bookhand, or Italic style,
calligraphy conveys class
and elegance. Margaret
Shepherd makes this
ancient art form
accessible in a completely
hand-lettered technical
guide that will: * Provide
context for calligraphy as

an art, exploring the rich tradition of hand-lettering and mapping the evolution of the most popular styles. * Give detailed technical advice on choosing pens, paper, and inks, setting up your workspace, mastering various pen angles, along with step-by-step illustrations to guide you as you practice. * Explain which alphabets are appropriate for different forms of writing. For example, the Roman alphabet works well for short, unpunctuated passages, while the Italic

alphabet is more suited to informal everyday communication. * Encourage you to personalize your lettering by using variant strokes and interpreting how you would like the words to look on the page. * Inspire you with carefully chosen illustrations and examples, which bring letters to life. In Margaret Shepherd's own words, "Calligraphy trains not only your eye and hand, but your mind as well." Learn Calligraphy is the authoritative primer for this age-old craft, and will

help develop a new appreciation for lettering as you discover your creative personality. *Lettering with Purpose* National Geographic Books

creative inspiration for graphic designers, artists, and type enthusiasts alike. Hand lettering is making a comeback, bursting out of its graphic-design bubble and finding a mainstream via collecting social media sites like Instagram and Pinterest. The avid interest in hand lettering seemingly goes hand in hand with the weariness audiences feel with constant slick digital presentation of the information they consume. The Art of Lettering collects myriad

new and established graphic designers for whom hand lettering is a time-honored art that has modern applications. Showcasing more than 100 artists from all over the world, the book displays their typographic takes and illustrates their perfectly imperfect handcrafted art, from beautiful photographs of concept sketches to the end result. Walter Foster Jr.

John M. Horton's marine art captures today and yesterday - people, places and events as we know and remember them. His paintings grace the walls of corporate offices, private homes, mansions, museums and even ships

at sea. While there are many artists who paint marine scenes, few have Horton's ability to delineate accurately the architecture of a ship. And few compare when it comes to depicting the history of maritime events through their work. Horton's portrayals range from the Pacific voyages of discovery when captains Cook and Vancouver first anchored off British Columbia to contemporary settings on urban and rural waterfronts. He gives us glimpses of other parts of

the world, or the military at work, of bustling ports and tranquil inlets. *Encouraging the Artist in Your Child (even If You Can't Draw)* Macmillan It's a super cute, can't fail, totally awesome, drawing, lettering, & coloring book for kids! - More than 100 step-by-step drawing lessons for cute animals, yummy desserts, nature themes, and others. - Lettering lessons for 3 different alphabet styles. - Pun-tastic coloring pages! - Printed on high-quality art paper so you can use your favorite art
