"fascinating,"
Robert Greene
and Joost
Elffers have
distilled three
thousand

years of the history of power into 48 essential laws by drawing from the philosophies of Machiavelli, Sun Tzu, and Carl Von Clausewitz and also from the lives of figures ranging from Henry Kissinger to P.T. Barnum. Some laws teach the need for prudence (“Law 1: Never Outshine the Master”), others teach the value of confidence (“Law 28: Enter Action with

Boldness”), and many recommend absolute self-preservation (“Law 15: Crush Your Enemy Totally”). Every law, though, has one thing in common: an interest in total domination. In a bold and arresting two-color package, *The 48 Laws of Power* is ideal whether your aim is conquest, self-defense, or simply to understand the rules of the game.

Information and distractions claw at your time and attention. You're always busy, always searching for

the finish line ... or at least the pause button. Life feels like an endless series of "what's nexts"--what's the next meeting, task, obligation, goal, achievement? Adam M. Lowenstein emerged from the nonstop, striving-obsessed world of American politics convinced that everyone, no matter who you are or what you do, has the power to build more fulfilling days. You don't have to

undertake a radical transformation . You don't have to quit your job or move halfway around the world. You can simply tweak how you approach each day. Find meaning in your daily burdens and commitments. Resist the allure of busyness. Make more time for what matters to you (and feel less guilty when you do). In Reframe the Day, Lowenstein offers ten tips, tactics, and techniques for

nudging your days in a more fulfilling direction. Combining concrete advice with tools for self-reflection, Reframe the Day shows you how to reframe the way you see and spend your days and, over time, reshape your life.

Are you:--
seeking to renew a relationship? -
- considering a new relationship? -
- troubled with establishing a long-term relationship? -
- divorced and trying to

understand why your marriage failed? -- experiencing problems in love, romance, sex, intimacy or marriage? -- a therapist or counselor who would like to provide an accessible resource for your clients? -- Millions of books on relationships have been printed over the years. Why do we need another? We need The Art of Love: The Craft of Relationship for the same reasons that over four and

a half million readers wanted Spencer Johnson's Who Moved My Cheese. Following Johnson's methods of teaching to a broad, modern audience, The Art of Love: The Craft of Relationship presents the profound principles that form a loving relationship in an easily accessible manner. Using a very simple approach, it will help people shift their attitudes and provide them with the skills to create

loving, long-lasting partnerships. There are so many titles in print on change because it is an ongoing challenge for most of us. So are relationships. With more than six decades of experience working with couples, we knew we had vital information, lessons, and insights to share, but we insisted that the book be short, engaging, and easy to read. A helpful book does not have

to be dense to be packed with wisdom, skills, and ideas that can open the door to a new era of fulfilling relationships. We have brought complex material and common sense into a format that is carefully constructed to achieve results by being communicative and consistent, enjoyable and hopeful. Unlike the textbook appearance of most self-help books that include

psychological jargon, case examples and exercises, *The Art of Love: The Craft of Relationship* uses stories and dialogue to teach profound insights and valuable skills. It sticks to people talking in a way the reader can identify with and understand. It brings hope because the reader who is experiencing stress in a relationship can see that other people, like them, are, too. And, that learning a few basic skills

can bring lasting change and renew love. The best news is that our book will be useful to many people because it will give them a new way to look at their relationship and the skills to handle problem after problem in a way that builds love and trust. Our mission is to appeal strongly to those who are considering a relationship, seeking to renew one, or are looking for a way to understand a partner and a

process for dealing with problems in love, romance, sex, intimacy and living together.

The Purpose-driven Life

Penguin
In a culture obsessed with happiness, this wise, stirring book points the way toward a richer, more satisfying life. Too many of us believe that the search for meaning is an esoteric pursuit—that you have to travel to a distant monastery or

page through dusty volumes to discover life's secrets. The truth is, there are untapped sources of meaning all around us—right here, right now. To explore how we can craft lives of meaning, Emily Esfahani Smith synthesizes a kaleidoscopic array of sources—from psychologists, sociologists, philosophers, and neuroscientist s to figures in literature and history such as George Eliot, Viktor

Frankl, Aristotle, and the Buddha. Drawing on this research, Smith shows us how cultivating connections to others, identifying and working toward a purpose, telling stories about our place in the world, and seeking out mystery can immeasurably deepen our lives. To bring what she calls the four pillars of meaning to life, Smith visits a tight-knit fishing village in the Chesapeake Bay, stargazes

in West Texas, attends a dinner where young people gather to share their experiences of profound loss, and more. She also introduces us to compelling seekers of meaning—from the drug kingpin who finds his purpose in helping people get fit to the artist who draws on her Hindu upbringing to create arresting photographs. And she explores how we might begin to build a culture that

leaves space for introspection and awe, cultivates a sense of community, and imbues our lives with meaning.

Inspiring and story-driven, *The Power of Meaning* will strike a profound chord in anyone seeking a life that matters.

Vintage
"An insightful guide for readers, writers, and instructors from all walks of life," this manifesto and practical guide

challenges current models of craft and the writing workshop by showing how they fail marginalized writers, and how cultural expectations inform storytelling (Kirkus Reviews). The traditional writing workshop was established with white male writers in mind; what we call craft is informed by their cultural values. In this bold and original examination of elements of writing--

including plot, character, conflict, structure, and believability-- and aspects of workshop-- including the silenced writer and the imagined reader-- Matthew Salesses asks questions to invigorate these familiar concepts. He upends Western notions of how a story must progress. How can we rethink craft, and the teaching of it, to better reach writers with diverse backgrounds? How can we invite diverse

storytelling traditions into literary spaces? Drawing from examples including One Thousand and One Nights, Curious George, Ursula K. Le Guin's A Wizard of Earthsea, and the Asian American classic No-No Boy, Salesses asks us to reimagine craft and the workshop. In the pages of exercises included here, teachers will find suggestions for building syllabi, grading, and

introducing new methods to the classroom; students will find revision and editing guidance, as well as a new lens for reading their work. Salesses shows that we need to interrogate the lack of diversity at the core of published fiction: how we teach and write it. After all, as he reminds us, "When we write fiction, we write the world."

 “Nothing short of riveting...an engrossing first-person account by one of our finest actors” (Huffington Post)—both a coming-of-age story and a meditation on creativity, devotion, and craft—Bryan Cranston, beloved and acclaimed star of one of history’s most successful TV

shows, Breaking Bad. Bryan Cranston began his acting career at the age of seven, when his father, a struggling actor and sometime director, cast him in a commercial for United Way. By fifth grade he was starring in the school play, spending hours at the local movie theater, and re-enacting favorite scenes with his brother in their living room. Cranston seemed

destined to be an actor. But then his father left. And his family fell apart. Troubled by his father's missteps, Cranston abandoned his acting aspirations and resolved to pursue a steadier career in law enforcement. Then, on a two-year cross-country motorcycle journey, Cranston re-discovered his talent for acting and found his mission and his calling. In this "must-read memoir"

(The Philadelphia Inquirer), Cranston traces the many roles he inhabited throughout his remarkable life, both on and off screen. For the first time he shares the story of his early years as an actor on the soap opera Loving, his recurring spots on Seinfeld, and his time as bumbling father Hal on Malcolm in the Middle, to his tour-de-force, Tony-winning performance as Lyndon Baines

Johnson in Broadway's *All the Way*, to his most iconic role of all: *Breaking Bad*'s Walter White. "An illuminating window into the actor's psyche" (People),

Cranston has much to say about creativity, devotion, and craft, as well as innate talent and its challenges and benefits and proper maintenance. "By turns gritty, funny,

and sad" (Entertainment Weekly), ultimately *A Life in Parts* is a story about the joy, the necessity, and the transformative power of simple hard work.
