tells how  
amazing new  
archaeological  
discoveries of  
battle-scarred  
female  
skeletons  
buried with  
their weapons  
prove that

women warriors were not merely figments of the Greek imagination. Combining classical myth and art, nomad traditions, and scientific archaeology, she reveals intimate, surprising details and original insights about the lives and legends of the women known as Amazons. Provocatively arguing that a timeless search for a balance between the sexes explains the allure of the Amazons,

Mayor reminds us that there were as many Amazon love stories as there were war stories. The Greeks were not the only people enchanted by Amazons—Mayor shows that warlike women of nomadic cultures inspired exciting tales in ancient Egypt, Persia, India, Central Asia, and China. Driven by a detective's curiosity, Mayor unearths long-buried evidence and

sifts fact from fiction to show how flesh-and-blood women of the Eurasian steppes were mythologized as Amazons, the equals of men. The result is likely to become a classic. Carving Classic Female Figures in Wood Fox Chapel Publishing Finally, a book for power carvers by a power carver! Learn to carve realistic facial features with confidence and ease. Concisely illustrated,

step-by-step directions for carving the human head. Disciplines and guidelines pertaining to facial layout and proportion are coupled power carving techniques. Ten projects and plans. Weaving the Past Cambridge University Press This is the first book-length examination of Spartan women, covering over a thousand years in the history of women from both the elite and lower classes.

Classicist Sarah B. Pomeroy comprehensively analyzes ancient texts and archaeological evidence to construct the world of these elusive though much noticed females. Sparta has always posed a challenge to ancient historians because information about the society is relatively scarce. Most existing scholarship on Sparta concerns the military history of the city and its

heavily male-dominated social structure--almost as if there were no women in Sparta. Yet perhaps the most famous of mythic Greek women, Menelaus' wife Helen, the cause of the Trojan War, was herself a Spartan. Written by one of the leading authorities on women in antiquity, Spartan Women reconstructs the lives and the world of Sparta's women, including how their status

changed over time and how they held on to their surprising autonomy. Proceeding through the archaic, classical, Hellenistic, and Roman periods, *Spartan Women* includes discussions of education, family life, reproduction, religion, and athletics. *ArtCurious Profile Books Presents* works of art selected from the South and Southeast Asian and Islamic collection of

The Metropolitan Museum of Art, lessons plans, and classroom activities. **The Monstrous-Feminine** Linden Pub An updated edition of the Sunday Times Bestseller Britain's best-known classicist Mary Beard, is also a committed and vocal feminist. With wry wit, she revisits the gender agenda and shows how history has treated powerful women. Her examples

range from the classical world to the modern day, from Medusa and Athena to Theresa May and Hillary Clinton. Beard explores the cultural underpinnings of misogyny, considering the public voice of women, our cultural assumptions about women's relationship with power, and how powerful women resist being packaged into a male template. A year on since the advent of

#metoo, Beard looks at how the discussions have moved on during this time, and how that intersects with issues of rape and consent, and the stories men tell themselves to support their actions. In trademark Beardian style, using examples ancient and modern, Beard argues, 'it's time for change - and now!' From the author of international bestseller SPQR: A History of Ancient Rome.

Using projects to demonstrate the various aspects and different styles of carving to the newcomer, this step-by-step guide shows how to approach the craft without the assistance of large machinery. Each project is specifically chosen to introduce new techniques. Projects are small, useful, fun to carve, and can be completed in a few days or

over a weekend. Major techniques such as carving in the round, relief carving, knife work, and working with burrs and rasps are covered. The projects presented help beginning woodworkers to learn particular carving techniques that they can then employ on more complex projects. **Woodcarving Illustrated Issue 29 Holiday 2004**

 America's  
 Legacy  
 Campus, the  
 new edition,  
 returns the  
 reader to this  
 architectural

gem and cultural touchstone. Revised and updated to include new buildings and features of campus life, it is a must have for any Hoosier. The IU Bloomington campus, rich in architectural tradition, harmonious in building scale and materials, and surrounded by natural beauty, stands today as a testimony to careful campus planning and committed stewardship.

Planning principles adopted in the very early stages of campus development have been protected, enhanced, and faithfully preserved, resulting in an institution that can truly be called America's Legacy Campus. Lavishly illustrated and brimming with fascinating details, this book tells the story of Indiana University—a tale not only of buildings, architecture, and growth,

but of the talented, dedicated people who brought the buildings to life. Completely updated with new buildings and an epilogue, and now even more lavishly illustrated, this new edition is a lasting tribute to the treasure that is Indiana University Bloomington. Who's who in Art Fox Chapel Publishing Weaving the Past offers a comprehensive and interdisciplinary history of

Latin America's indigenous women. While the book concentrates on native women in Mesoamerica and the Andes, it covers indigenous people in other parts of South and Central America, including lowland peoples in and beyond Brazil, and Afro-indigenous peoples, such as the Garifuna, of Central America. Drawing on primary and secondary

sources, it argues that change, not continuity, has been the norm for indigenous peoples whose resilience in the face of complex and long-term patterns of cultural change is due in no small part to the roles, actions, and agency of women. The book provides broad coverage of gender roles in native Latin America over many centuries, drawing upon a range of evidence from archaeology, anthropology,

religion, and politics. Primary and secondary sources include chronicles, codices, newspaper articles, and monographic work on specific regions. Arguing that Latin America's indigenous women were the critical force behind the more important events and processes of Latin America's history, Kellogg interweaves the region's history of

family, sexual, and labor history with the origins of women's power in prehispanic, colonial, and modern South and Central America. Shying away from interpretations that treat women as house bound and passive, the book instead emphasizes women's long history of performing labor, being politically active, and contributing to, even supporting, family and community well-being.

 NEW YORK TIMES BESTSELLER • One million copies sold! "A deeply spiritual book [that] honors what is tough, smart and untamed in women."—The Washington Post Book World Book club pick for Emma Watson's Our Shared Shelf Within every woman there lives a powerful force, filled with good instincts, passionate creativity, and ageless knowing. She is the Wild Woman, who represents the instinctual nature of women. But she is an endangered species. For though the gifts of wildish nature belong to us at birth, society's attempt to "civilize" us into rigid roles has muffled the deep, life-giving messages of our own souls. In *Women Who Run with the Wolves*, Dr. Clarissa

Pinkola Estés unfolds rich intercultural myths, fairy tales, folk tales, and stories, many from her own traditions, in order to help women reconnect with the fierce, healthy, visionary attributes of this instinctual nature. Through the stories and commentaries in this remarkable book, we retrieve, examine, love, and understand the Wild Woman, and hold her

against our deep psyches as one who is both magic and medicine. Dr. Estés has created a new lexicon for describing the female psyche. Fertile and life-giving, it is a psychology of women in the truest sense, a knowing of the soul. *Woodcarving Illustrated Issue 28 Fall 2004* Schiffer Pub Limited A wildly entertaining and surprisingly educational dive into art history as you've never seen it before,

from the host of the beloved ArtCurious podcast We're all familiar with the works of Claude Monet, thanks in no small part to the ubiquitous reproductions of his water lilies on umbrellas, handbags, scarves, and dorm-room posters. But did you also know that Monet and his cohort were trailblazing rebels whose works were originally deemed unbelievably ugly and vulgar? And while you

probably know the tale of Vincent van Gogh's suicide, you may not be aware that there's pretty compelling evidence that the artist didn't die by his own hand but was accidentally killed--or even murdered. Or how about the fact that one of Andy Warhol's most enduring legacies involves Caroline Kennedy's moldy birthday cake and a collection of toenail clippings?

ArtCurious is a colorful look at the world of art history, revealing some of the strangest, funniest, and most fascinating stories behind the world's great artists and masterpieces. Through these and other incredible, weird, and wonderful tales, ArtCurious presents an engaging look at why art history is, and continues to be, a riveting and relevant world to explore.

Large Print Press  
A New York Times Notable Book, winner of the Jerwood Award from the Royal Society of Literature, a New York Times Book Review Editors' Choice, and named a Book of the Year by the Telegraph, Spectator, Observer, and BBC History Magazine, this bold new history of the rise of Christianity shows how its radical followers helped to

annihilate Greek and Roman civilizations. The Darkening Age is the largely unknown story of how a militant religion deliberately attacked and suppressed the teachings of the Classical world, ushering in centuries of unquestioning adherence to "one true faith." Despite the long-held notion that the early Christians were meek and mild, going to their martyrs'

deaths singing hymns of love and praise, the truth, as Catherine Nixey reveals, is very different. Far from being meek and mild, they were violent, ruthless, and fundamentally intolerant. Unlike the polytheistic world, in which the addition of one new religion made no fundamental difference to the old ones, this new ideology stated not only that it was the way, the truth, and

the light but that, by extension, every single other way was wrong and had to be destroyed. From the first century to the sixth, those who didn't fall into step with its beliefs were pursued in every possible way: social, legal, financial, and physical. Their altars were upturned and their temples demolished, their statues hacked to pieces, and their priests killed. It was an annihilation. Authoritative,

vividly written, and utterly compelling, this is a remarkable debut from a brilliant young historian.
