*Euphemism and Dysphemism* Good Year Books  
 The author of many books on typography, Dan X. Solo is also the proprietor of his own typography shop in Oakland, California — an establishment dedicated to unusual typography and special effects. This comprehensive catalog offers graphic designers a dazzling selection of over 4,000 typefaces and optical effects available from Solotype Typographers. Here, in Solo's words, is "a great cast of characters" — the alphabet — abetted by a cornucopia of typographical ideas and an endless resource of letters, words, phrases, slogans, logos, humorous

comments, headlines, and graphic symbols. Individual sections of the book display a rich variety of typefaces in categories such as Condensed, Victorian, Art Nouveau, Art Deco, Rustic, Thick-and-tin, Calligraphic, Uncials, Latins, and Blackletter. Samples are imaginatively presented. "Stagecoach," for example, is printed in Fargo typeface, evoking dusty trails, rawhide, and ten-gallon hats, while "Sizzling summer savings" appears appropriately in the flamboyant Firebug typeface. All typefaces are indexed for quick and easy reference. As entertaining as it is practical and useful, this impressive treasury of versatile typefaces and optical effects will be indispensable to busy commercial artists as an inexhaustible source of typographic ideas and a "swipe file" of words, phrases, and letters for use in graphic art projects.

This book can be seen as an attempt to preserve the chronology of product advertising throughout decades of consumerism in modern history of America. However, it is also a great reminder and inspiring read, if not an eye candy, for all designers, illustrators and even memorabilia collectors, of the progress made in visual communications in course of many decades of changes in advertising. Like a time capsule, all the best (and worst) elements of campaigning for the products are captured in this book, showing directly the climate of social, cultural and political changes in and out of the country that most of the time served as a starting point for defining the look of particular design, package and overall feeling of the product. Again, just like the rest of the series (20s, 30s, 40s, etc.), this book is a great addition for any designer to get the better look over the history of art, design and communication through the prism of time that has passed.

*Three Thousand Years in Africa* Taschen America Llc

Though much has been written about the political implications of the religious revival which has engulfed America in recent years, a question remains unanswered: what pushes its people into "declaring for Jesus"? Douglas Kennedy spent a long hot summer cruising through that expanse of the American South known as "The Bible Belt" exploring that question. In a remarkable journey into one of the strangest corners of the United States, Kennedy finds himself spending time in Miami with a one-time member of the Mafia turned charismatic preacher, discovering Christian heavy metal music in Nashville, and visiting Death Row in South Carolina with an evangelist who ministers to the condemned. Repeatedly discovering the extraordinary within the ordinary, *IN GOD'S COUNTRY* is a profound, yet brilliantly entertaining exploration of life in late twentieth century America.

There is probably no stranger nor more

controversial book that Jane Sherwood's report, through automatic writing, of the identity of a communicator from the other side of the grave who chose to call himself 'Scott'. After many years of enforced silence, as a result of a solemn promise given to Scott, Jane Sherwood reveals his true identity, namely, Colonel T. E. Lawrence (Lawrence of Arabia). Post-Mortem Journal opens at the moment of Lawrence's death when he finds himself lying at the roadside by his shattered motorbike, unaware that he is actually 'dead'. It continues over the years and shows us the development and salvation of a tortured and guilty man who, for the first time, is forced into admitting his weaknesses and vanities during his earthly life and is only now able to come to terms with himself. Such revelations are both harrowing and magnificent. 'As to the validity', says Jane Sherwood, 'of the information contained in "Scott's" journal I can only vouch for my own honesty; what I have received is here set down without addition or modification. The readers must judge of its probability for themselves.'

In this project, I was able to break the rules in order to understand them. In this project, I was able to experiment with typography. This book will showcase my experiments that were created through the use of typography morphology.
